Amendment mailed: April 14, 2004  
Attorney File: RO0254US.RCE (#90568)

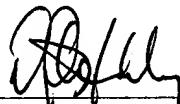

### **REMARKS**

The amendment to the specification corrects a minor error in that the rounded corners 24 are a portion of the backing layer 20 rather than of the detachable protective layer 12. Formal drawings consisting of Figs. 1 and 2 are attached on a "Replacement Sheet." Fig. 1 has been changed to show the corner indicated by numeral 24 as being a rounded corner and to show the bend in backing layer 20 with the double line. Fig. 2 was amended to add punching line 12a. No new matter is being added to the application.

It is respectfully requested that the present amendment be entered. The undersigned is available to discuss any aspect of this amendment by telephone if necessary to conclude the prosecution of this application.

Respectfully submitted,
